

# Andromeda Park Community Consultative Committee

## Chairman's Report September 2014 - September 2015.

The Committee met on 10th November 2014 & 11th May 2015. There was no obvious need for any more meetings. The next meeting is to be held on 16th November 2015.

Little of significance happened during the year, although the following were achieved:

- ① The washer station is operating & no issues have arisen
- ② Dust monitoring is continuing & no issues have arisen.
- ③ Crushing & screening activities have commenced on site.
- ④ The Gungahlin bypass road is virtually completed.

Concerns were raised as to trucks passing through Gungahlin, possibly in breach of developmental approval. The company assured the C.C.C. that these movements were in accordance with a licence granted to it.

Brian Jenno left the district & resigned from the C.C.C. His efforts & contribution have been greatly appreciated. Damian Cole has been appointed as his replacement. The continued membership of all other community members & myself has been confirmed.

It is anticipated that more work will be done on site in the next 12 months.

  
(D.J. Elder) Chairman.
